BOOK SECTION

PEER REVIEWED PUBLICATIONS

Bigault, O., S. N. Shekar, et al. (In prep). "High heritability of refractive error and axial length. The Twins Eye Study."

Byrne, B., S. Samuelson, et al. (in preparation). "Title unknown:- update on preschool stage of longitudinal twin study of reading and language, with country comparison."

Dirani, M., M. Chamberlain, et al. (in prep.). "Refraction - twin review."

Dirani, M., M. Chamberlain, et al. (in prep.). "Twin myopia study - methodology paper."

Hogg, R. and e. al (in prep). "Heritability of Fundus Austofluorescence - A twin study."

Hogg, R., P. Dimitrov, et al. (in prep). "Heritability of visual function - a classical twin study."

Hogg, R., M. Dirani, et al. (In prep). "Heritability of AMD."

Martin, N., K. S. Bennett, et al. (submitted). "Attention deficit hyperactivity disorder and reading ability: Results of latent class analyses."

McCleod, K., V. White, et al. *(submitted 2004).* "She tried it and she hated it and I tried it and I loved it." Adult identical twins talk about becoming discordant for smoking status during adolescence. *Qualitative Health Research.*

Ruddle, J., S. A. Brown, et al. (In prep). "Heritability of Inter pupillary disc: The Twins Eye Study."

PUBLISHED ABSTRACTS

CONFERENCE PROCEEDINGS

Hughes, T., L. Richards, et al. (2005). Genetic influences on primary incisor crown size in Australian twins. 83rd General Session, International Association for Dental Research, Baltimore, USA.

Martin, N., K. S. Bennett, et al. (2005). Attention Deficit Hyperactivity Disorder and Reading Disability: Results of latent class analyses. Sixth Annual Meeting of the ADHD Molecular Genetics Network, Miami, USA.
